

Nokia Speakerphone HF-510

Data Sheet

Product Overview

- The Nokia Speakerphone HF-510 is easy to use and it is designed to adjust to your handsfree requirements whilst on the move. Thanks to the three different fixings, the installation possibilities are endless. Choose the ideal position for your speakerphone and attach it securely, making it convenient, reliable and extremely flexible – in the car, home or office. Control by seeing who is calling and dialing out of the telephone book.
